**DESCRIPTION & USES**

Majic Camouflage Spray Paint offers a flat, non-reflective finish that is rust inhibiting and water resistant to protect wood and metal from the elements. The color selection is perfect for breaking up outlines and shapes with camouflage allowing you to blend with almost any nature background.

**PRODUCTS & SIZES**

8-20850 Olive Drab, 8-20851 Black, 8-20852 Khaki, 8-20853 Bark Gray, 8-20854 Earth Brown, 8-20855 Desert Tan. Available in 12 oz sprays.

**SURFACE PREPARATION**

**Bare Metal:** Remove all rust scale with wire brush or sander. Remove oil or grease with paint thinner. Prime with rust inhibiting primer.  
**Painted Metal:** Remove loose or peeling paint and rust scale with wire brush or sander. Remove oil or grease with paint thinner. Prime any bare metal with rust inhibiting primer.  
**Painted Surfaces: (General)** Make sure surface is clean, dry and free of loose paint, dirt, wax, grease, etc. Sand glossy areas. Spot prime absorbent areas.

**APPLICATION**

Surface must be dry and free of dirt, dust, grease or wax. Protect surrounding areas with drop cloths. Always apply paint at room temperature (70°-80° F). To ensure color uniformity and prevent clogging, SHAKE CAN vigorously for at least one minute after mixing ball rattles. Hold can in an upright position 10" to 16" from the object being sprayed. Press spray button firmly. Use steady, even strokes while spraying. Several thin coats will result in a better finish than one heavy coat. If clogging develops remove spray button with a twisting motion and clean in mineral spirits. **DO NOT STICK PIN OR OTHER OBJECT INTO CAN.** Gently replace spray button with a twisting motion with top of can and spray button opening pointed away from you. Always clean spray button immediately after use by turning can upside down and pressing spray button until no more paint comes out.
